Section 10	Health & Safety Guidance
Section 11	Local Maps

Section 1 - Emergency Arrangements

Major Emergency

The definition of a 'Major Incident' or 'Major Emergency' as supplied by Chichester District Council is, "an incident endangering or likely to endanger life and property that to deal with would be beyond the scope and facilities of normal day to day operational capabilities of those services responding". Such incidents can occur anywhere at any time and often without warning.

Response

In normal circumstances the response to a major emergency would come from the inter-agency arrangements formalised between the Emergency Services and Chichester District Council. Sussex Police would probably take the initial lead in co-ordinating the operation.

In these circumstances the role of the Parish Councils at a major emergency affecting the Parishes would be to assist the Emergency Services and Chichester District Council when requested by providing local knowledge and resources including organising local volunteers. Operations would come under the direction of the Police or District Council. It is therefore important that this Parish Emergency Plan, a copy of which will be lodged with C.D.C., fits with the inter-agency arrangements.

Self Help Response

There may be unusual circumstances, for example, widespread travel disruption from severe weather, major power failure or serious communication breakdown when an immediate response from the Emergency Services or District Council cannot be provided. These Parishes are located to the south of Chichester District with a coastal boundary and in the event of widespread problems could expect a delayed response. ***In these circumstances our own community will need to undertake self-help activities and the Parish Council together with local volunteers will take whatever initial steps are possible to respond to the emergency.***

Purpose

The Parishes of Earnley, East Wittering & Bracklesham and West Wittering are situated on the western side of the Manhood Peninsular south of Chichester. We are fortunate that we have no rail lines, major roads, major industrial sites, rivers or other identified significant hazards and so specific plans are unnecessary. Of course we have in the past faced severe weather storm damage. Also, we have a coastal boundary which extends along to, and includes Chichester Harbour. We are constantly overflown by aircraft entering and leaving UK airspace Goodwood light aircraft and heavy military helicopters. There is also the possibility of an incident in the English Channel or Chichester Harbour. This plan provides simple guidance to enable support to the inter-agency services or, if appropriate, a start to self-help response.

Health & Safety

However, when making a self-help response, matters such as individual safety and Health & Safety requirements need to be considered. The requirements for risk assessments must be addressed and reference should be made to the guidance issued by Chichester District Council, which is reproduced in Section 10 of this Plan.

Data Protection

This Emergency Plan contains personal data and is therefore subject to Data Protection Legislation. It is not necessary to notify the Information Commissioner as the data is being processed on behalf of Chichester District Council's emergency plan. The personal details noted within this Plan have been obtained from publicly available local publications where the individuals concerned have allowed their details to be used in the contexts shown. Personal details of other persons, such as local volunteers will be collated into a separate appendix as and when permissions are obtained in line with the data protection rules.

Local Procedure

Notification of a major emergency, requests for assistance and all relevant information should be directed to the **Emergency Co-ordinator** or in his or her absence the **Deputy Co-ordinator**. The under mentioned four persons hold copies of the Emergency Plan.

Emergency Co-ordinator

Joyce Griffith

Deputy Co-ordinator

Keith Aldridge

Birdham Co-ordinator

Tim Firmston

Section 2 - Emergency Co-ordinator or Deputy

Function

The function of the Emergency Co-ordinator or the Deputy Co-ordinator is to action requests from the Emergency Services or District Council. He will become the link between the District Council and the Parishes response. In self-help circumstances he will assess the situation and co-ordinates the local voluntary response. Initial action should include verifying the source of information relating to the emergency and calling out volunteer assistance or resources that are immediately required.

Logbook

The Co-ordinator should ensure that all decisions and actions are timed and recorded in a logbook. The maintenance of a logbook is essential to detail the response and to provide updates when required. It will also provide evidence for any subsequent debrief or inquiry. Entries should be clear, accurate, concise and written in black ink. The results of actions taken by other individuals should be reported to the Co-ordinator to provide a full picture and enable the record to be maintained in the logbook.

The Co-ordinator should not attempt to make all the phone calls or records himself but should enlist suitable volunteers so he can devote time to assessment and strategic planning.

Early Action

Early action should be to establish a command post from which to operate and to nominate a suitable rendezvous point where volunteers can report for logging, skills identification, briefing and deployment.

Communication

Communication is an important aspect of the response. Consideration should be given to providing regular updates on the Parish Councils web sites and the nomination of a telephone number for use as an information help line. A two-way radio net is not available in the Parish. Landline telephones could be affected by severe weather and mobile networks can fail if overloaded. If it becomes necessary to resort to word of mouth communication the Parish has a number of groups and clubs that could be used to cascade information among their members. (See Local Groups in Section 7)

Inter Agency

If the Emergency Services or District Council have requested specific assistance, it is important that the Co-ordinator ensures they are kept informed of actions and results so as accurate a picture as possible is maintained.

In a widespread emergency situation the District Council may be so committed to being 'reactive' that it may not have time or staff to be 'proactive' in phoning Parishes to ascertain the up to date situation. It is therefore important to keep the District Council apprised of the current situation. Even where the District Council is stretched it may still be able to allocate resources for self-help activity in the Parishes.

Stand Down

When the incident is declared over, the Emergency Co-ordinator should ensure that all local volunteers are made aware and assist in returning the Parishes to normality. He should arrange for any local volunteers to be debriefed and appropriate comments noted as part of a final report. He or she should also, where appropriate represent the Parish Councils at any District Council debrief.

Finance

The question of spending Parish Council funds in an emergency situation needs to be addressed at an early stage in the crisis.

Section 3 - Volunteers

Volunteers

There are two main categories of volunteers. Established organisations such as St John Ambulance, British Red Cross, WRVS and the like have inter-agency arrangements agreed with the Emergency Services for times of major emergencies. The other source of volunteers is local people who offer help in time of crisis. If the Emergency Services and District Council are dealing with the emergency any local volunteers can be organised by the Parish Councils but will work under the direction of the Council or Emergency Services. Normally it is the District Council that would co-ordinate roles for volunteers. The purpose of this plan is to provide guidance in circumstances where the Emergency Services and District Council are unable to respond immediately to a crisis in the Parishes of Earnley, East Wittering & Bracklesham and West Wittering). Whatever is undertaken it is important to inform all those involved when the emergency is over.

Self-help Response

Within the Parishes there is undoubtedly a range of skills available, which could prove extremely useful in time of crisis. Some people have indicated their willingness to assist and their details are being recorded as an appendix to this plan. However it is likely that many more will volunteer if a serious emergency should arise. If at all possible such a response should be co-ordinated in an orderly manner and one of the initial tasks for the Emergency Co-ordinator is to arrange for the setting up and staffing of a Rendezvous Point (RV Point) to which volunteers can be directed. The RV point should be at a suitable location away from the scene(s) of the incident. At the RV Point facilities should exist to log the details and special skills of those people volunteering before committing them to actual tasks.

In the absence of the Emergency Services or District Council there are aspects of the use of volunteers that must be considered. There are issues around health and safety, accountability, legal liability, protection of children and insurance indemnity. Ideally risk assessments relating to tasks should be undertaken, even if only basic, for the protection of volunteers (see Section 10 for guidance on risk assessments). However in an emergency with no statutory services available local volunteers will undoubtedly get on and do what they can to help and comfort those affected by the emergency. There are some basic arrangements that should be undertaken such as: -

- Logging details and expertise of volunteers
- Briefing volunteers
- Co-ordinating volunteers
- Welfare of volunteers
- Provision of protective equipment

Volunteers with suitable expertise can be used in a variety of ways including: -

- Searching for victims or lost persons
- Manning village halls if opened as temporary Reception Centres to shelter those involved
- If suitably trained to offer first aid
- Offering comfort to distressed persons
- Cascading information around the community
- Transport for stranded persons or urgent supplies (especially 4x4)
- Offering temporary accommodation
- Providing staff support to the Emergency Co-ordinator
- Undertaking the clearance of fallen trees and other road obstructions
- With suitable equipment and expertise either isolating or, where safe to do so, making safe dangerous structures.

Protection of children.

It is important to consider, even in the initial chaos of a serious emergency, the protection of children and other vulnerable persons. Any volunteers involved with such persons should if at all possible be suitably screened such as youth workers, teachers, school governors and the like. If this is not immediately possible there should be at least two volunteers, one of each sex.

Volunteers for other circumstances.

The role of the Emergency Co-ordinator and use of volunteers may be activated in other circumstances, for example to assist police in a search for a missing child or other vulnerable person. Generally on such occasions the police will direct the activity but may require assistance with local knowledge or to assemble and control parties of volunteers. There will also be a need for the provision of briefing, welfare and refreshments for volunteers. The requirements of Health and Safety and child protection also apply.

There may also be less urgent circumstances when the co-ordination of volunteers and provision of facilities may be required. Such occasions may include the response to a public appeal for supplies following a major disaster in another part of the country or abroad. It is not possible to anticipate every eventuality but using aspects of this plan to harness local volunteer energy could prove useful should it be required.

Section 5 - Advice for Emergency Situations

Based on guidance from Chichester District Council

General Advice

Prepare an emergency self-help kit. It can contain anything you feel will assist you in an emergency. Consider:-

- Torch + spare batteries
- Radio - battery powered/wind-up
- Candles and matches or oil lamps
- Bottled water
- List of emergency and other useful numbers (on mobile phone)
- First Aid kit with necessary medication
- Waterproof clothing, hat scarf and gloves
- Wellington boots
- Blankets
- Key personal documents

Know how to turn off at mains – gas (including bottled gas), water, electricity.

Undertake temporary repairs to your property to stop things becoming worse.

Plan how to contact relatives especially children if an emergency develops.

Identify a reunion location if unable to return to home.

Flooding

Undertake any necessary repairs to prevent damage becoming worse.

Keep all receipts for insurance claims.

Protect doorways, low-level air vents and windows with sandbags or black bin liners filled with soil.

Move as many belongings and furniture as possible upstairs or on to higher-level surfaces.

Turn off gas, water, electricity.

Check on neighbours particularly elderly, infirm or disabled.

For information and warnings call Floodline 0845 9881188 or

www.environment-agency.gov.uk/floodwarning/

Evacuations

If there is a major incident, it is possible the police will order an evacuation of an area.

If the police tell you to evacuate, gather any necessary medication and warm clothing.

Where possible turn off gas, water, electricity and put out any fires.

Leave the house, lock it and go to where you have been instructed.

If you are sick, elderly or disabled ensure the police or council are made aware so special arrangements can be made.

Where possible transport will be arranged to take evacuees to a rest centre.

The rest centre will be run by Chichester District Council possibly with local assistance.

If you go to stay with friends or relatives or book into a hotel or similar until allowed to return to your own home, then ensure the police or the council are made aware.

The rest centre will provide temporary accommodation, food and drink where appropriate (may be a village hall). Council staff will try to provide as much information as possible and will make arrangements to return you to your house as soon as possible. The situation at the rest centre will be difficult and all persons there should exercise restraint, patience and good humour.

Snow

If snow is extensive remain indoors, keep warm and listen to local radio. Only venture outside if absolutely necessary.

Local radio will give information of road and school closures.

If possible check on neighbours particularly those who are elderly, infirm or disabled.

Severe Storms

Move inside any objects that could be blown down or secure them.

Take pets inside.

Close windows and remain inside, listen to local radio for information.

Have ready torches, candles and matches in case of power failure. If power fails ensure equipment is turned off to prevent unexpected activation when power resumes. Beware of fire risks particularly when using candles etc.

If water or electricity fails, where possible, notify the appropriate services.

Warning System

Information from the County and District Councils will be broadcast on local radio, television, web sites and other media outlets.

Information on emergencies will normally include a telephone information help line for members of the public.

Section 10 – Health & Safety Guidance

Health and Safety Guidance

As it is not possible to predetermine every situation that may give rise to a local emergency it is thus not possible to lay down specific detailed safety instructions for every eventuality. However, the under mentioned general principles should be followed in conducting a specific Risk assessment before any task.

1. Personal

Is each individual who will be involved in conducting the task:

- I physically fit enough to cope with the task and any likely eventuality?
- II Suitably trained and experiences to undertake the task?
- III Adequately equipped with suitable and relevant Personal Protective Equipment (PPE)?
- IV Suitably trained in the use of any tools and equipment (including the PPE)?
- V Briefed on the task and on any limitations on continuing further activity (e.g. need to stop activity and / or withdraw from the scene)?

2. Equipment

Is / does the equipment to be used:

- I Adequate for the task envisaged?
- II Maintained in a safe, serviceable and secure condition (including all ancillaries such as leads, cables, flex, pipelines, connections)?
- III Useable without specific training / prior experience?

3. Environment

Is / does the environment around the area:

- I Safe from falling debris?
- II Provide a sound footing at ground level?
- III Enable the task to be completed standing / seated / kneeling at or below ground level?
- IV Free from noxious gases and vapours?
- V Free from flooding risks?
- VI Safe from electrical hazards?
- VII Free from flammability hazards?

If the response to any question is NO or NOT KNOWN the task must not proceed until the issue has been resolved (otherwise known as a control measure put in place)
