Christmas Greetings

2018 has been a great year for the LSA project with the house now safely in storage at **The Weald and Downland Living Museum** ensuring that our story now has a permanent home. Two weekend displays (May and October) were held at the museum and there were three more presentations to local groups. New contacts continue to be made with the relatives of the original tenants and additional archive material is still being donated.

The new owners are keen to know more of its previous history, so let me now if have any stories.
