To preventable loss of life from medical emergency. We fulfil this aim by provision of HEMS (Helicopter Emergency Medical Service). HEMS brings A&E resources, including doctors and paramedics, direct to the patient at the scene of emergency. Some surgical procedures may be undertaken there, including administration of anaesthetics and blood transfusions. Plus rapid transfer to the most appropriate hospital trauma centre. Grant is requested as a contribution to the operating costs of HEMS - helicopter, rapid response vehicles, medical equipment, fuel and highly trained crews.
